

Coal Camp Hamlet Bank Armouring

James Crozier
November 17, 2020

Agenda

- Project Purpose
- Project Background
- Proposed Work
- Proposed Schedule
- Questions & Feedback

Project Purpose

- Reduce bank erosion caused by future highwater events
- Prevent damage to County Infrastructure
- Increase safety of the public

Project Background

- Damage caused by 2013 flood
- Feasibility assessment completed in 2014
- Provincial grant funding received in 2020
- Budget set at \$1,320,000

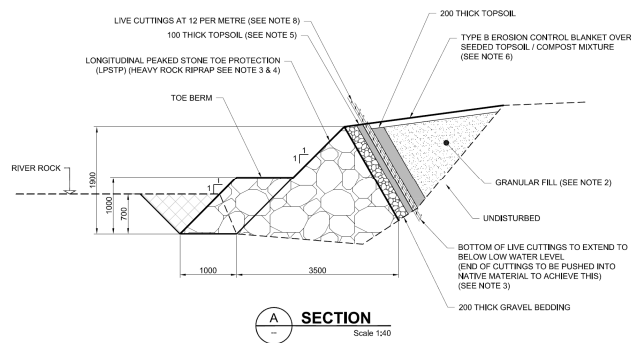

View of erosion damage and bank instability along the river bank adjacent to the Coal Camp Road looking downstream from the existing road bank armouring.

Proposed Work

- Protect and rebuild exposed riverbank
- Free standing structure
- Use of vegetation and hard armouring (rock)
- Tie into existing armouning and bedrock outcrop

Proposed Work

Mountain View
COUNTY

Proposed Schedule

- Community engagement – November 2020
- Detailed design & regulatory approvals:
November 2020 to June 2021
- Construction: July 2021 – October 2021

Community Support is Critical!

Questions & Feedback

Thank you!
