

Highway 2/27 Area Structure Plan

Progress *report*

APRIL MONTHLY PROGRESS REPORT

The Highway 2/27 Area Structure Plan process has begun!

Steering Committee Meetings Underway

Meeting #1: April 2, 2013

The first steering committee meeting took place on April 2, 2013. The committee completed the following administrative tasks:

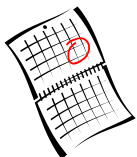

- appointed a chairman
- appointed vice-chairman
- reviewed terms of reference
- reviewed planning document hierarchy, where an ASP sits
- reviewed current planning policies and documents led by consultant (McElhanney)

The committee then reviewed the boundary of the existing ASP and identified existing and proposed water and sanitary sewer lines. The meeting finished with discussion on the meeting schedule.

Meeting #2: April 22, 2013

The second steering committee meeting took place on April 22, 2013. Led by Jonathan Schmidt (McElhanney) and Tracey Connatty (MVC), this meeting was very interactive with members providing input into a SWOT (strengths, weaknesses, opportunities and threats) analysis for the ASP area. This feedback will assist in formulating the vision, policies and land use plan for the ASP.

The committee then discussed the existing ASP vision and suggested additional values that should be in the new ASP vision. In addition, the members compiled a list of stakeholders.

Upcoming Meetings

- May 15, 2013 – Steering Committee (Policy & Land Use Plan Discussion)
- June Public Open House (tentatively June 12, 4pm-8pm, Olds Central Highlands Golf Course)
