Other Info

Being on council for the past four years has definitely been a steep learning curve. Plainly, there are some decisions made on a provincial or federal level and municipal government has zero control over their impact(s). However, regarding municipal matters, I strongly believe that I have acted with the best interests of my constituents in mind. Furthermore, despite being only one out of seven votes, I will continue to make the best of all voting opportunities. I graciously thank everyone who has supported me these past four years and I hope you give me the opportunity to represent you again in this election. If elected for another term, I will continue to support agriculture, community engagement, fiscal responsibility and family values. It is my honor to represent the County of Mountain View!

I believe my experience in both agriculture and business ownership offers me a unique perspective as a councilor. The majority of my business' customers are farmers, and I genuinely enjoy connecting with them and hearing their concerns as they relate to county matters. In essence, I get to combine both of my "jobs" into one visit.

I believe our county has many more opportunities for agriculture and business to unite to make Mountain View County stronger and more enticing, which plays directly into my skill set. Mountain View County is truly one of the best places to live in this beautiful province!
