3. REASON FOR REDESIGNATION/SUBDIVISION (please give reasons for your application and how the reasons support the Municipal Development Plan. If additional space is required, please submit on a separate piece of paper):

see attached word document

I purchased both quarters but did not build the residence that crosses property lines and lacks road access. I plan to resolve this by creating a separate parcel and proposing direct road access for the dwelling.

My main interest was the land, which is adjacent to our family's existing property that has been farmed since the 1950s; I do not need the house. We've rented the residence, including as an Airbnb over the past two years, to help cover costs.

The area north of the house is part of the historic Morton farmstead and has always been used with the residence. By extending the current driveway east rather than building one south, agricultural land remains in production and avoids challenges posed by the ridge. If approved, we wish to widen the approach on Range Road 2.2 for a shared driveway instead of adding another access point.

Cattle can still cross the river and use the SW quarter pasture. The southern tip extends beyond the shelterbelt to meet septic setback requirements.

4. PHYSICAL CHARACTERISTICS of the land to be subdivided:

Describe the nature of the topography of the land (flat, rolling, steep, mixed): Flat where the parcel is

Describe the nature of the vegetation & water on the land (brush, shrubs, tree stands, woodlots, etc. sloughs, creeks, etc.): native pasture + pasture tame grass

Describe the kind of soil on the land (sandy, loam, clay, etc.): heavy black

5. EXISTING BUILDINGS & BUSINESSES ON THE LAND TO BE SUBDIVIDED:

Describe any buildings, structures &/or businesses on the land. Any changes proposed (adding, demolishing or removal)?

House + pump shed

6. WATER AND SEWER SERVICES

Does the proposed subdivision contain the following:

Sewage System  Yes  No Type: field system

Water Supply  Yes  No Type: Well

If sewage systems or water supply have not been established, describe the manner of providing water and sewage disposal to the proposed subdivision.

Does the proposed remainder contain the following:

Sewage System  Yes  No Type: \_\_\_\_\_

Distance to Proposed Subdivision: \_\_\_\_\_

Water Supply  Yes  No Type: Well, creek

7. ABANDONED OIL/GAS WELLS:

Are there any abandoned oil/gas wells on the property?  Yes  No
