AG PLASTIC ROUNDUP DAY

CLEAN UP THE YARD - BRING 'EM IN!

GRAIN BAGS, BALER TWINE, SILAGE PLASTIC, AND BALE WRAP

GRAIN BAGS

1. **Roll & Remove Debris** - while tightly rolling bags with a mechanical roller, shake or cut to remove spoilage, dirt, rocks, etc.
2. **Tie** - the rolls with baler twine to hold them together for transport.
3. **Return** - to the **Ag Plastic Roundup Day**.

* A grain bag roller will be available on site.

SILAGE FILM

1. **Cut** - into manageable pieces
2. **Fold** - into ~4' squares
3. **Store** - on a pallet
4. **Densify & Return** - compact into tight bales and tie with twine, or bring folded plastic to the **Ag Plastic Roundup Day**.

* An ag plastic compactor will be available on site.

TWINE

1. **Shake** - to remove as much debris, snow, or ice as possible.
2. **Bag** - loose twine in a collection bag & secure closed.
3. **Return** - to the **Ag Plastic Roundup Day** - collection bags available free of charge from the county office.

BALE WRAP

1. **Cut** - into manageable pieces
2. **Fold** - into ~4' squares
3. **Store** - on a pallet
4. **Densify & Return** - compact into tight bales and tie with twine, or bring folded plastic to the **Ag Plastic Roundup Day**.

* An ag plastic compactor will be available on site.
