

My name is Dwayne Fulton, and I'm seeking re-election as your Councillor for Division 1.

As one of only two actively farming Councillors, I strongly believe it's essential to have farmers' perspectives represented at the Council table. We understand firsthand the unique challenges and opportunities facing rural communities, and I remain committed to advocating for policies that support agriculture.

A lifelong resident of Mountain View County, my wife Shannon and I live on our family farm west of Carstairs. Over the past eight years, I have had the privilege of serving you on County Council. I have taken on a variety of leadership roles, including:

- Deputy Reeve
- Chair of Mountain View Seniors Housing, advocating for affordable, quality accommodations for seniors.
- Chair of the Audit Committee
- Member of the Agricultural Service Board and Municipal Planning Commission
- Representative on multiple Inter-Municipal Collaboration Committees (Carstairs, Didsbury, Cremona)
- Member of the Inter-Municipal Frameworks with Rocky View County, Kneehill County, and the MD of Bighorn
- Member of the Central Rural Municipalities of Alberta, Carstairs Library Board, Parkland Regional Library Board, and Aggie Days Committee

Throughout my time on Council, my focus has been on results-driven leadership, responsible governance, and fiscal prudence. I've worked hard to ensure that the County operates efficiently. Some of the accomplishments I'm most proud of include:

- Doubling the budget for the Rip & Chip Program, improving our chip-seal road network
- Supporting an 18% reduction in the residential mill rate over the past five years
- Advocating for the long-awaited Acme Road upgrade to asphalt, improving transportation for everyone
- Pushing for road safety improvements, including the installation of guard rails on Range Road 13
- Working closely with urban municipalities on shared services, such as recreation, fire services, and capital projects
- Actively advocating to the Provincial Government on issues vital to Mountain View County, ensuring that our concerns are heard

Serving as a Councillor is a year-round commitment. Whether I'm attending meetings, reading agendas, answering emails, or simply speaking with residents, I always strive to represent your best interests with dedication and integrity.

I remain deeply committed to serving the residents of Mountain View County. I will continue to lead with honesty, integrity, and experience, and I will prioritize the following goals:

- Maintain fiscal responsibility and work to limit tax increases
- Ensure that County Policies, the Land Use Bylaw, and the Municipal Development Plan are reviewed and refined to meet the needs of our community
- Advocate for transparency in all decision-making processes and ensure the people of Mountain View County remain informed and involved
- Negotiate the best possible agreements with our urban partners, benefiting all communities
- Support the E3 Lithium extraction project.
- Collaborate with the Village of Cremona as they navigate the Provincial Viability Review process

I believe in practical, achievable solutions—not vague promises. While no single councillor can do everything on their own, I will continue to work collaboratively to achieve results that benefit our community.

Thank you for your trust and support over the years. I'm here to serve and listen.
