

Division 5 Councillor; Christina McCharles

My goal in running for council is to be elected as a division 5 councillor. As a councillor, I want to be able to speak intuitively for the people of division 5 and keep working with business to find an equity balance between the two. Making use of my experience when dealing with legislative bodies to ensure a logical working balance is achieved. Protection of aquifers, riparian zones and watersheds is of the utmost importance. Working with communities to enhance the work that council currently does within Mountain View County. I believe in focusing on residents' quality of life, and protection of their way of life as a cornerstone standard. Farmers, ranchers, acreage homeowners, and businesses are all valued equally and deserve a voice at the table when council decisions are being made. Time management for decision making, and deliberate focus when decisions are being made are extremely important to me; that is why I am asking for your vote to be the next division 5 councillor.

These will be my directives when I make my vote count when I am a successful division 5 Councillor. In summary, division 5 needs a strong, harmonic voice with deliberate decision-making processes that will ultimately affect residents and community positively. I believe all councillors need to ensure they act in accordance with a councillor's oath and code of conduct. Upholding due diligence while representing the communities.

I am a local, acreage owner for 7 years, who appreciates the neighbourhood with its tranquil lifestyle, which is the reason I moved here. I do own two accounting firms, and have a lengthy career in Quality, Health, Safety and Environment in many different industries. Aviation, Transportation, Wildland Fire Fighting, Power Distribution/Transmission, Manufacturing, Oil and Gas Service and Production, with a starting foundation in Nursing.
